Comptroller

Preparation of a List of Covert Projects on Which There is
Insufficient Information for Proper Accounting

1. The DD/A has requested that there be prepared for his review and release to DD/P by 1 January 1955 a ".....list of all existing covert projects on which there is insufficient information for proper accounting."

2. In accordance with my verbal instructions to you on this subject, will you please prepare such a list and submit to this Office as soon as possible. In preparing the list, it is suggested that the projects be listed under category headings which will indicate the reason why there is insufficient information for proper accounting purposes, i.e., (a) projects on which accountings were waived by DCI; (b) proprietary projects on which the Comptroller's Office has not received comprehensive accounting reports; (c) covert projects on which accounting reports are delinquent or deficient, etc.
